(theresa.mitchell@dfw.wa.gov) (theresa.mitchell@dfw.wa.gov)

Dear Mr. Thompson

If you want to leave the temporary erosion protection you have placed within your shoreline, you'll have to submit a Unclassified Shoreline permit application, JARPA application and SEPA application along with the associated fees back to Pierce County Planning and Land Services within 45 days to possibly legitimize your work done within the shoreline. Your only other option is to remove the cement blocks and rocks you installed and let nature take its course as Ms. Mitchell and I have talked to you about in our phone conversation with you. I'll be sending you a Notice and Order to Correct to resolve this violation as well as the temporary usage/occupancy of your travel trailer on your property.

Sincerely,

Mark J. Luppino, Code Enforcement Officer
